

## LIGHT AIR NOISE (LAN) Bylaw Committee

### Agenda

### Public Outreach Meeting Presentation

Location: Lawrence Library

January 22, 2020

7 PM - 8:30 PM

#### Agenda:

1. Presentation by Tim Brothers, LAN committee member: Preserving Pepperell's Dark Skies

With a focus on Pepperell, Tim will talk about one of the fastest growing forms of environmental pollution: light pollution. Not just an issue for the astronomer, the costs to human and animal health are evident now. Fortunately, light pollution is an easily solvable environmental problem. By passing common-sense bylaws, we can save energy, tax payer dollars and the environment.

Tim Brothers is the observatory manager of MIT's Wallace Astrophysical Observatory and a technical instructor in the Department of Earth, Atmospheric and Planetary Sciences. In addition to education and outreach, he is the Vice President of the newly formed Massachusetts Chapter of the International Dark-Sky Association.

2. Comments from LAN members

3. Comments from the audience

The Town of Pepperell strives to assure that no individual who is abled differently, shall, by that reason, be excluded from participation in or be denied the benefits of the services, programs, or activities of the Town of Pepperell. Towards that end, persons needing different considerations of accessibility are asked to contact the Selectmen's office in advance of any meeting to assure that prior arrangements are made to ensure full participation in the meeting.
