2.1. Planning Board Appointment

3. Adjournment

The next scheduled Select Board meeting is December 13, 2021. The Deadline for agenda topics will be December 7, 2021.

The Town of Pepperell strives to assure that no individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs or activities of the Town of Pepperell. Towards that end, persons with special needs are asked to contact the Select Board's Office in advance of any meeting to assure that prior arrangements are made to assure full participation in the meeting.

4. Joint Appointments

Executive Summary: As of September 16, 2021, the Planning Board had a vacant seat. Per Section 3-7a of the Town of Pepperell Charter, the Planning Board provided notice to the Board of Selectman of the vacancy. After a public posting period, the Planning Board brought forth their recommendation to fill the vacancy and this person will serve until the next regular town election.

Please see below in red for the recommendation from Casey Campetti, Chair of the Planning Board, for the appointment of David Ganong to the Planning Board vacant seat.

Dear Select Board:

At our meeting tonight the Planning Board voted 4-0 in favor of recommending that David Ganong be appointed to the vacant Planning Board seat. I am requesting that we schedule a joint meeting of the Planning Board and Select Board to make this appointment. The Planning Board would be happy to make a quorum available on the same night as the next Select Board meeting so that we could call the joint meeting for the appointment and then adjourn. Please let me know if your meeting schedule can accommodate this.

Thank you,

Casey

*Casey Campetti (she/her)
Planning Board - Chair*

Recommended Action: Move to appoint David Ganong to the Planning Board and to serve until the next Town Election in 2022.

The Tower at PNC Plaza
Under Construction - Expected Completion July 2015
PITTSBURGH, PA

ROLE

Project Architect - Workplace Floors
Job Captain
Gensler

OVERVIEW

The Tower at PNC Plaza is 32 stories of new construction in downtown Pittsburgh, Pennsylvania. Targeting LEED Platinum, the project focuses on “three pillars”; energy conservation, organizational productivity, and community. A breathable double skin facade allows for natural ventilation. A solar collector on the buildings roof draws warm air out of the tower, and pulls refreshing air in through automated gates and dampers in the inner skin. When the building is operating in passive mode, the occupants can open a sliding door to allow more fresh air to flow into the space. This airflow is a principle driver in the layout of the workplace floors. Each grouping of two floors shares a “neighborhood” housing meeting rooms, shared amenities and a two-story space overlooking Pittsburgh’s Market Square.
