1. Interviews

Andrew Seamans has done per diem for us since April 2015. He has been a medic for 2 years, been in EMS services for 10 years and is a supervisor with MedStar. The Firefighter 1 and 2 class he had hoped to be attending in Phillipston did not happen but he will attend another class that starts June 27th. It lasts 4 months.

He was asked a series of prepared questions and given a written protocol test.

John Haley has been an EMT/Paramedic for 28 years and currently works for Cataldo Ambulance. He was with Cohasset Fire for about 6 years and is currently reviewing his firefighting skills with firefighter friends.

He was asked a series of prepared questions and given a written protocol test.

Robert Aldred started as an EMT before his 18th birthday and has been in EMS services for over 25 years. He currently lives in GA but his wife is being transferred to this area. He has all ready started the paperwork to have his Paramedic certification recognized by Mass.

He was asked a series of prepared questions and given a written protocol test. It was noted he will not be familiar with the state medication protocols.
