### **NON-BINDING RESOLUTION**

To see if the Town will vote to adopt the following non-binding resolution opposing the proposed "Soil Reclamation Project" at 161 Nashua Road in Pepperell, Massachusetts or take any other action relative thereto.

WHEREAS, a proposed "reclamation" project consisting of four million cubic yards of soil from construction and expansion projects across New England may come through Pepperell and our neighboring communities; and

WHEREAS, said proposed "reclamation" project would make use of 55,000+ tractor-trailer trucks travelling one-way to 161 Nashua Road across state and town roads; and

WHEREAS, said proposed "reclamation" project would make use of 55,000+ tractor-trailer trucks travelling one-way from 161 Nashua Road back across state and town roads in order to return to their point of origin; and

WHEREAS, these 110,000+ trucks would – in the course of their travel – pass in front of numerous small businesses, churches, schools, and the Pepperell Senior Center; and

WHEREAS, said proposed "reclamation" project is projected to last seven to nine years; and

WHEREAS, the track record for analytical testing protocols has been deemed insufficient for similar "clean" fill/"reclamation" projects in Massachusetts (e.g., Rutland and Uxbridge, which had hazardous waste, volatile inorganic compounds, and other wastes deposited at these project sites); and

WHEREAS, any project containing hazardous waste, by its nature, carries the potential for leaks or explosion causing untold damage to property, water, and lives; and

WHEREAS, the proposed project site lies in close proximity to the Nashua River, and due to the site's soil composition consisting largely of sand and gravel, likely has a direct hydrologic connection to the Nashua River; and

WHEREAS, the Nashua River Watershed Association – with over 50 years of stewardship of our rivers -- has grave concerns that the proposed project at 161 Nashua Road in Pepperell threatens our natural resources and river ecosystems and opposes this project; and

WHEREAS, a portion of the proposed site is within the Zone II Nashua Well water supply for the town of Pepperell, and potential contaminants flowing from the proposed site could flow rapidly into the Nashua River and Pepperell water supplies, thereby threatening them; and

WHEREAS the proposed project may include work within the 200' Riverfront Area, priority habitat for rare species, and a portion of the 100' buffer of a wetland; and

WHEREAS said proposed project would adversely affect property values, adversely affect residents' livelihood, adversely affect the efficacy of businesses, and otherwise negatively impact the integrity of the town's bucolic character due to the noise, dust, and disruption 110,000+ tractor-trailer trucks will bring; and

WHEREAS, the cost of the Special Counsel and the Licensed Site Professional the Town is forced to hire falls on private citizens.

NOW THEREFORE BE IT RESOLVED THAT the people of Pepperell, Massachusetts

1. Hereby call on our Select Board, Planning Board, and Board of Health to stand in opposition to the proposed "reclamation" project at 161 Nashua Road and not allow it within town borders;
2. Stand in opposition to all similar projects that may be later proposed;
3. Oppose any project carrying potentially contaminated soils within the borders of our town; and
4. Hereby instruct our state and federal legislators and executive branch officials to enact legislation and take any such other actions as are necessary to disallow such projects that go against the Town of Pepperell's commitments to life, the environment, our economic well-being, and our bodily safety.

Dated: August 20, 2018
