Upon request of the Licensee, the Issuing Authority’s PEG Access designee shall prepare an annual report for the preceding calendar year which records how the annual payment for PEG operations was spent. The Licensee may deduct from the annual PEG Fee payments the amount of the License Fee and other permissible offsets under federal law as necessary to ensure the total franchise fee obligation does not exceed the 5% cap on franchise fees provided for by the Cable Act.

(b) If the Town issues or renews any cable license after the Effective Date that provides for a lower percentage of PEG Access Support, then the percentage of the Licensee’s PEG Access Support payments shall be reduced to match such lower percentage over that same time period

13.4 Recovery of Costs. To the extent permitted by federal and State law, the Licensee shall be allowed to recover the costs of the annual PEG access support payments, and any other costs, including interconnection costs, arising from the provision of PEG services from Subscribers and to include such costs as a separately billed line item on each Subscriber’s bill.

13.5 User/Producer Indemnity for PEG. The Issuing Authority or its designee shall exercise reasonable efforts to require all local producers and users of any of the PEG facilities or channels to agree in writing to authorize the Licensee to transmit programming consistent with this License and hold harmless and defend the Licensee and the Town from and against any and all liability or other injury, including the reasonable cost of defending claims or litigation, arising from or in connection with claims for their possible failure to comply with applicable federal laws, rules, regulations or other requirements of local, state or federal authorities; for claims of libel, slander, invasion of privacy, or the infringement of common law or statutory copyright; for unauthorized use of any trademark, trade name or service mark; for breach of contractual or other obligations owing to third parties by the producer or user; and for any other injury or damage in law or equity which proximately is caused by such producer’s or user’s use of a PEG facility or channel. The Issuing Authority shall establish rules and regulations for use of PEG

facilities consistent with Section 611 of the Communications Act (47 U.S.C. § 531) and this License.

13.6 Access Channel Origination. Subject to applicable law the Licensee shall continue to provide the existing fiber optic connections and video return lines for PEG Channel origination to be used for PEG video transport only from the following locations from which Licensee is currently transporting PEG Access video programming to Licensee’s hub or headend as applicable: Town Hall (One Main Street), the PEG Access studio (6 Cottage Street); North Middlesex Regional High School (19 Main Street, Townsend); the Lawrence Library (15 Main Street); and the Nissitissit Middle School (33 Chace Avenue) and the Albert Harris Senior Center (37 Nashua Road). The fiber connections will enable the upstream transmission of PEG Access programming to the system headend or functionally equivalent location for distribution to customers on three PEG Access channels unless otherwise specified pursuant to the terms of a separate contract. The PEG origination site from which Licensee shall interconnect for upstream transmissions to its headend or hubsite(s) will be the 6 Cottage Street studio (where the local PEG cable signals are currently aggregated from the other existing video origination locations) and the aforementioned other video origination locations.

The PEG Channel origination connections shall be operated in compliance with the System Technical Specifications found in FCC Part 76, Subpart K, 76.601 et seq. if applicable.

The PEG Channel origination connections shall be interconnected with the Subscriber Network in order that signals originating from PEG Channel origination points can be distributed over Subscriber Network channels for viewing by the public.

SECTION 14

Enforcement, Revocation, Penalties

14.1 Notice of Violation. If the Issuing Authority believes that the Licensee has not complied with the terms of the License, the Issuing Authority shall first informally discuss the matter with Licensee. If these discussions do not lead to resolution of the problem, the Issuing Authority shall notify the Licensee in writing of the exact nature of the alleged noncompliance (the “Violation Notice”) and the following procedural framework shall apply:

14.2 Licensee’s Right to Cure or Respond. The Licensee shall have thirty (30) days from receipt of the Violation Notice to: (i) respond to the Issuing Authority, contesting the assertion of noncompliance; (ii) cure such default; or (iii) if, by the nature of default, such default cannot be cured within the thirty (30) day period, initiate reasonable steps to remedy such default and notify the Issuing Authority of the steps being taken and the projected date that they will be completed.

14.3 Public Hearing. If the Licensee fails to respond to the Violation Notice received from the Issuing Authority, or if the default is not remedied within the cure period set forth above, the Issuing Authority shall schedule a public hearing if it intends to continue its investigation into the default. The Issuing Authority shall provide the Licensee at least twenty (20) days prior written notice of such hearing, which specifies the time, place and purpose of such hearing, notice of which shall be published by the Clerk of the Issuing Authority in a newspaper of general circulation within the Issuing Authority in accordance with subsection 15.8 hereof. At the hearing, the Issuing Authority shall provide the Licensee with an opportunity to state its position on the matter, present evidence and question witnesses, after which it shall determine whether or not the Licensee has defaulted in the performance of a material License provision and whether and what License or other lawful remedies should be invoked or whether the License shall be revoked. The public hearing shall be on the record and upon the request and at the expense of Licensee, a written transcript shall be prepared and made available to the Licensee within ten (10) business days of Licensee giving the Town Administrator a written request for same.. The decision of the Issuing Authority shall be made in writing and shall be delivered to the Licensee. The Licensee may appeal such determination to an appropriate court, which shall have the power to review the decision by the Issuing Authority de novo. The Licensee may continue to operate the Cable System until all appellate procedures have been exhausted.

14.4 Enforcement. Subject to applicable federal and state law, in the event the Issuing Authority, after the hearing set forth in subsection 14.3 above, determines that the Licensee is in default of any provision of the License, the Issuing Authority may:

- A. Seek specific performance of any provision, which reasonably lends itself to such remedy, as an alternative to damages;
- B. Commence an action at law for monetary damages or seek other equitable relief;
or
- C. In the case of a substantial default of a material provision of the License, seek to revoke the License itself in accordance with subsection 14.5 below
- D. Seek full or partial recourse to the performance bond if and as applicable; or
- E. Invoke any other remedies available at law or equity or as may otherwise be lawfully available to the Town.

14.5 Revocation.

- A. Prior to revocation or termination of the License, the Issuing Authority shall give written notice to the Licensee of its intent to revoke the License on the basis of a pattern of noncompliance by the Licensee, including one or more instances of substantial noncompliance with a material provision of the License. The notice

shall set forth the exact nature of the noncompliance. The Licensee shall have sixty (60) days from such notice to either object in writing and to state its reasons for such objection and provide any explanation or to cure the alleged noncompliance. If the Issuing Authority has not received a satisfactory response from the Licensee, it may then seek to revoke the License at a public hearing. The Licensee shall be given at least thirty (30) days prior written notice of such public hearing, specifying the time and place of such hearing and stating its intent to revoke the License. The public hearing shall be conducted in accordance with the requirements of Section 14.3.

- B. Notwithstanding the above provisions, the Licensee reserves all of its rights under federal law or regulation.
- C. Upon revocation of the License, the Licensee may remove the Cable System from the Streets of the Town or abandon the Cable System in place.

14.6 Recomputation.

No acceptance of any PEG Fee or License Fee payment by the Issuing Authority shall be construed as an accord and satisfaction that the amount paid is in fact the correct amount or a release of any claim that the Issuing Authority may have for further or additional sums payable under this Agreement, and all amounts paid shall be subject to audit and recomputation of the Issuing Authority. The audit period shall cover no more than the previous three (3) years. If the Issuing Authority has reason to believe that any such payment(s) are incorrect, the Licensee shall have thirty (30) business days after a request from the Issuing Authority to provide the Town with additional information documenting and verifying the accuracy of any such payment(s). In the event that the Issuing Authority does not believe that such documentation supports the accuracy of such payment(s), the Issuing Authority may conduct an audit of such payment(s).

If, after such audit and re-computation, the Issuing Authority and Licensee agree that an additional fee is owed to the Town, such fee shall be paid within sixty (60) days after such audit and recomputation. In the event that any Franchise payment or recomputed payment is not made on or before the dates specified herein, Licensee shall pay an interest charge, computed from such due date, at the prime interest rate.

SECTION 15 **Miscellaneous Provisions**

15.1 Compliance with Laws. Issuing Authority and Licensee shall conform to all applicable state and federal laws and rules regarding cable television as they become effective. Subject to Section 2.3 above, Licensee shall also conform with all generally applicable Town ordinances/bylaws, resolutions, rules and regulations heretofore or hereafter adopted or

established during the entire term of the License. In the event of a conflict between the Issuing Authority's ordinances/bylaws, resolutions, rules or regulations and the provisions of the License, the provisions of this License shall govern.

15.2 Force Majeure. The Licensee and the Town shall not be held in default under, or in noncompliance with the provisions of the License, nor suffer any enforcement or penalty relating to noncompliance or default, where such noncompliance or alleged defaults occurred or were caused by circumstances reasonably beyond the ability of the Licensee or Town to anticipate and control. This provision includes, but is not limited to, severe or unusual weather conditions, fire, flood, or other acts of God, strikes, work delays caused by failure of utility providers to service, maintain, or monitor their utility poles to which Licensee's Cable System is attached, as well as unavailability of materials and/or qualified labor to perform the work necessary.

15.3 Minor Violations. Furthermore, the parties hereby agree that it is not the Issuing Authority's intention to subject the Licensee to forfeitures or revocation of the License for violations of the License where the violation was a good faith error that resulted in no or minimal negative impact on the Subscribers within the Service Area, or where strict performance would result in practical difficulties and hardship to the Licensee which outweighs the benefit to be derived by the Issuing Authority and/or Subscribers.

15.4 Action of Parties. In any action by the Issuing Authority or the Licensee that is mandated or permitted under the terms hereof, such party shall act in a reasonable, expeditious and timely manner. Furthermore, in any instance where approval or consent is required under the terms hereof, such approval or consent shall not be unreasonably withheld.

15.5 Modification/Termination Based on VSP Requirements.

1. If the Issuing Authority enters into any cable franchise, cable license or similar agreement with a VSP to provide Video Programming services to residential subscribers in the Town with terms or conditions materially less burdensome than those imposed by this License, Licensee and the Issuing Authority shall, within sixty (60) days of the Issuing Authority's receipt of Licensee's written notice thereof, commence negotiations to modify this License to provide that this License is not on terms or conditions materially more burdensome than the terms in any such cable franchise, cable license or similar agreement. Any modification of the License pursuant to the terms of this Section shall not trigger the requirements of 207 CMR 3.07. The PEG Access Support, as provided in Section 13.3, will be subject to modification under Section 13.3(b) for competitive equity purposes but shall not be subject to modification under this Section 15.5.

2. Licensee's notice pursuant to Section 15.5.1 shall specify the cable franchise, cable license or similar agreement and the materially less burdensome terms or conditions as set out Section 15.5.1 above. Licensee shall respond to reasonable information requests from the Town, as may be necessary to review the same.

3. In the event the parties do not, subject to the criteria above, reach mutually acceptable agreement on a modification as set out above, Licensee shall in its sole discretion, have the option of exercising any of the following actions:

a) commencing License renewal proceedings in accordance with 47 U.S.C. 546 with the License Term being accelerated, thus being deemed to expire thirty-six (36) months from the date of Licensee’s written notice to seek relief hereunder;

b) terminating the License in no less than thirty-six (36) months from written notice to the Issuing Authority;

c) if agreed by both parties, submitting the matter to commercial arbitration by a mutually-selected arbitrator in accordance with the rules of the American Arbitration Association; or

d) if agreed to by both parties, submitting the matter to mediation by a mutually-acceptable mediator.

Modification of the PEG Access Support under this License shall, as applicable, be in accordance with the terms and conditions set forth in Section 13.3(b) hereunder.

Unless otherwise provided by federal, State, or local law, all notices pursuant to this License shall be in writing and shall be deemed to be sufficiently given upon delivery to a Person at the address set forth below, or by U.S. certified mail, return receipt requested, nationally or internationally recognized courier service such as Federal Express or electronic mail communication to the designated electronic mail address provided below. 15.9 Entire Agreement. Pursuant to Section 635A(a) of the Communications Act (47 U.S.C. § 555a(a)), the Licensee shall have no recourse against the Issuing Authority, the Town and/or its officials, members, employees or agents other than injunctive relief or declaratory relief, arising from the regulation of Cable Service or from a decision of approval or disapproval with respect to a grant, renewal, transfer, or amendment of this Renewal License.
